

HARLAN FOR MAYOR.

If the local citizens can secure the services of Dr Rolvix Harlan, dean of Ottawa University, for mayor they will have taken the biggest step towards the advancement and betterment of Ottawa that has been taken in many years.

With a man of Dr. Harlan's known ability directing the civic and municipal affairs of the city, Ottawa can not help progressing with leaps and bounds. Dr. Harlan is progressive in every sense of the word, and with an inexhaustible supply of energy and "pep", he would be just the man to revive the old Ottawa slogan that

has long since fallen into disuse, 'Hear Ottawa Hum.' It would be revised of course, to "Make Ottawa Hum," because Harlan is a believer in action

With citizens, business men, professional men, and in fact every person of voting age in Ottawa for him, his opposition, should a rival candidate appear, would be almost less than nothing. His record as a citizen is absolutely above criticism his fitness to fill the mayoralty is unquestionable, and it is to be hoped that he will see his way clear to accede to the popular demand.
