Letters to the Editor

Dear Dr. Rau,

The following is a statement about our Chapter installation at Newark College of Engineering. In the near future I hope to prepare a short article on the desirability of an expanded program in forensics at an engineering college and how I believe membership in Pi Kappa Delta will provide needed stimulus. Any suggestions that you or your successor might have would be appreciated. Also, any editing that you wish to do to the following would be helpful.

On January 22, 1971, New Jersey Beta Chapter No. 355 located at Newark College of Engineering was installed by Seth Hawkins, So. Conn. State College. Installed as charter members at this time were:

Clarence S. Johnson, Sponsor, William Katcher, Spidola Krumins, Raymond Lehmann, and Jeffrey Miller. For its charter members it represents the culmination of years of effort in encouraging forensic activities at the college. It also presents a promise and a challenge to increase its forensic program in accordance with the meaning and spirit of the installation ritual. It firmly believes that engineering students should have every opportunity to increase their forensic abilities. Finally, it wishes to thank the National Council and the Local Chapters for granting it a charter and will do its best to live up to the standards of Pi Kappa Delta.

Sincerely yours,

(Dr.) Clarence S. Johnson
Associate Professor, Humanities,
Newark College of Engineering
Newark, New Jersey

The *STAFF* Signs Off

GIL RAU
Central Michigan University
Mt. Pleasant, Michigan 48858

STAFF - Left to right: Robert Tice, Gil Rau, Martha Haun, Frank Alusow, and John Burt.

With the publication of the May issue of *The FORENSIC* the work of the present editor and his staff comes to an end. The dominant emotions are regret and relief, in that order. Georgia Bowman now becomes the eleventh editor in the long history of PKD. The new editor can count on my full support, my full understanding, and my full sympathy.

The editorship of *The FORENSIC* calls for a four-year term. This term is apparently the longest required of any editorship in general speech today. Yet the current editor reaffirms the soundness of this arrangement. The national organization provides for regional or provincial gatherings of its chapters in the even numbered years and national conventions in the odd numbered years. So the editor of *The FORENSIC* serves during two such cycles, for a total of four years. He struggles to master the work of the first cycle, producing four issues the first year of the Provincials, followed by four issues and a convention booklet. Then, with more assurance and skill he repeats the process during the second half of his term of office. The tedium and monotony of carrying through

the third and fourth years is easily counterbalanced by the greater ease and familiarity with the routine.

I want to salute and publicly thank members of the out-going editorial staff — Frank Alusow, John Burt, Martha Haun, Robert Tice, and especially Larry Norton, our business manager. Operating skillfully and creatively for the editor and his staff were Mr. and Mrs. Richard Pendell, James Rebant, and others from Ford Press Inc. of Midland, Michigan. I am reluctant to bring the four-year printer-editor relationship to a close.

I also want to thank National Presidents Ted Carl and Francis Short and their able Councils for guidance and support as 16 issues of *The FORENSIC*, two convention booklets, a national constitution, and many issues of the *KEY* went to press since 1967. In closing, support your new editor by sending her chapter news and alumni news; submit your articles — writers — directly to the new editor. Finally, make sure that each student member personally receives his copy of each issue as it comes out.
