TO WHOM IT MAY CONCERN:

This is to certify that I have examined the books and records of Pi Kappa Delta Forensic Society for the period August 1, 1960 to July 31, 1961 inclusive.

The foregoing statement is prepared in conjunction with Dr. D. J. Nabors according to established form,

and is a true and correct report of the financial status of the organization as of this date.

R. Burl Harris Auditor (Copy)

THE JANUARY FORENSIC

Copy deadline for the January Forensic is December 19, 1961. Please send your copy as far in advance of that date as possible to the appropriate editor.

Remember—

Alumni News to Professor Frank T. Alusow, University of Akron, Akron, Ohio.

Chapter Notes to Professor John M. Burt, Concordia College, Moorhead, Minnesota.

Student Contributions to Professor L. A. Lawrence, Montana State College, Bozeman, Montana.

Wanted-

1. Pictures which reflect the accomplishments, the personalities, even the eccentricities of Pi Kappa Deltans. If some member of your chapter, whether active or alumnus, receives an award, is elected a beauty queen, or is involved in any newsworthy event, send us a picture. We need feature photographs of the kind that will interest all our members.

2. Articles written by student members. The Forensic will pay \$10.00 for each student article which is deemed worth printing. Admittedly, this is not a large sum, and we are sorry we cannot pay more, but surely there are students with ideas on forensics which they want to share with others. Articles should be approximately 1,000 words in length and should be accompanied by the name, school address, and class standing of the author.

A Debate Code of Ethics

truth and that he is never expected to deal in false evidence or argument. He is not even expected to reveal his own personal opinion. (It is interesting to note that opinion research reveals that the more study the debater has given to the problem, the less likely he is to be strongly opinionated. He has come to recognize there is much to be truthfully said on both sides of the proposition.)

26. Many arguments against such things as scouting, revealing the cases of teams, etc. lose their point under the philosophy of debate expressed here. Such activities can be significant only when trickery is involved. Many coaches have observed that the tendency toward trickery is most often found in the more poorly prepared teams and seems to be used as a substitute for thorough training and research.

27. High standards of public speaking should be encouraged at all times. Any tendency toward a special debaters "contest vocabulary" should be discouraged.

The Editor Signs Off

One of the important functions of The Forensic is to serve as a sounding board for the opinions of Pi Kappa Deltans on the issues and problems confronting the fraternity. It seems to me that the article by Donald Sikkink in this issue which suggests certain constitutional reforms deals with some very real problems and merits serious study. Your editor does not agree with everything that Don suggests. Some of the changes he argues for seem unnecessary, some seem impracticable. Others seem valid and workable. Mem-

bers of the fraternity are invited to write in their reactions to any or all of what Don suggests.

Those of you who attended the Convention in Stillwater last spring will recall that one of our major failings there was lack of adequate time to debate some of the proposals that were made from the floor in the last two business sessions. The truth is that so much of the necessary business of the convention has to be conducted in these sessions that there is seldom enough time for really fruitful debate. It seems to me, therefore, that the natural place for debate on changes in either the procedures or the constitution of Pi Kappa Delta is the pages of The Forensic. Do you think our conventions are too long? Write a short article on the subject and present your reasons forcefully. Do you think that certain items of activity ought to be handled at a different time during the convention? Let the fellow members of your organization know why you think so. Then those who disagree with you will have the opportunity to reply thoughtfully also. If matters can be thrashed out in these pages in advance, time will be saved at the convention, and—perhaps—less heat will be generated there.

Articles by students are particularly solicited. As a rule students are not much concerned with matters such as those mentioned above because of their lack of experience with the problems of a national convention, but students do know a great deal about what is going on at the contest level. They are uniquely qualified to answer such questions as "Is intercollegiate debate living up to the claims which it makes for itself?" and "What qualities make the ideal coach?" An honest discussion of oratory at the grass roots level of the participant would be beneficial to future students entering the contest. Why, for instance, do students enter the contest? What do they expect to gain from it? And what philosophy do they hold in regard to the event? Do they really expect to move an audience, or is oratory just an exercise in gaining the judges' votes. A word on these subjects from some of our superior winners at Stillwater would be especially appreciated.

Finally, please read the plea printed elsewhere in this issue for pictures that have real feature value. What is needed is something outside the usual run of winners posing with their trophies. Of course, we are glad to run these. But just once in a while send us something with a strong human interest angle, something that will show the side of forensics and of student speakers which does not get

into the news quite so often.

THE ART OF PERSUASION -BEAUTIFUL AND JUST
