Report of W. H. Isely,
for classes taught in Ottawa
Univ. during school year 1891-92.

Class.	Branches.	Number in the Class.
Senior	Isrology	6
Junior	Isrology Chemistry	11
	Physics	15
Sophomore	Physics Botany	8
Freshmen	Chemistry	6
Senior Prep.	Chemistry Physics	11
	Botany	12
	Elocutionary	6
Junior Prep.	drill for contest	35
	drill for contest Physical Geogr.	8
	Roman Hist.	8
English Prep.	Physical Geogr. Political Geography	20
Special Class	Political Geography Electricity	4
Total	12	142

I have but few special remarks to make. In fall term I moved and arranged the Museum. In class work I call attention to the following changes: Instead of taking merely Heat and Electricity the Juniors have practically completed Garnot's Physics.

The Botany classes have been required to collect and mount 50 different plants. Only 40 being required heretofore. Time for completing Physical Geography was reduced from two to one term work; the second term being given to the study of Roman History. In the winter term special study of Electricity was substituted for Zoology. Classes have all seemed loyal, energetic and enthusiastic. Have enjoyed the work. I am most sincerely

W. St. Isidore
Professor of Natural Sciences
