MEMO TO: University Trustees

FROM: W. L. Pankratz

RE: Narrative Accompanying Budget Submission:

We have had a difficult time in adjusting the budget to a balanced condition, more difficult than was anticipated in February. With the passage of time inflation has taken its toll. The following explanatory notes need to be brought to your attention.

1. Enrollment for the on-campus program is computed on the basis of 515 full-time equivalent (FTE) students; this will require an opening Fall head count of 569. This number is better than acturial data indicate we will have. The actuarial data compute to head counts of 336 returning and 205 new students, for a total of 541 (490 FTE).

The Basis for increasing the Fall enrollment projection is a plan submitted by the Athletic Department, and endorsed by the Admissions Staff, whereby they will recruit an additional 28 new students for the Fall enrollment. We are also hopeful that the "O.U. Sunday" promotions will have a positive effect.

Beyond this it seems that there is a consensus among the administrative officers that we <u>must have</u> not fewer than 500 FTE in order to sustain the program with a feasible economic base. Continued severe cutting necessitated by enrollment levels below 500 FTE can only result in questioning our continuance.

- 2. The <u>Gift Income</u> requirement has been increased to \$650,000 (from \$625,000). We believe this is achievable, but will require an increased promotional effort.
- 3. On-campus <u>General</u> & <u>Educational</u> (G. & E.) <u>Expenditures</u> have been further reduced, reflecting cuts in on-campus programs and services. Levels of G & E Expenditures in recent years:

1974-75 \$2,378,483 (actual) 1975-76 2,874,756 (actual) 1976-77 2,532,486 (actual) 1977-78 2,322,806 (budgeted) 1978-79 2,184,200 (proposed)

4. Our Student Aid Budget is increased by \$25,000. Our experience during the current school year indicates we will need a minimum of \$450,000 in University-funded aid to sustain the enrollment. This is indicative of the tough competitive market that exists. This is a budget increase of 5.5%, which parallels our overall price increase.

- 5. Our <u>Auxiliary Enterprises</u> loss is limited to \$50,000, per a proposal submitted to the Department of Housing and Urban Development in 1977. We believe they will accept this plan, though it does require a new review and approval in the Fall of 1978.
- 6. The budget <u>does not provide for debt-reduction</u> on our short term current fund loans. Earlier we had hoped that we could generate an additional \$50,000 surplus for this purpose, but it became apparent with the February revisions of the budget that this would not be feasible in the 1978-79 year.
