

The balance of the evening was spent in looking over the financial condition of the Institution when it was found in a very satisfactory condition.

Prof. Williams at this point made the following proposition viz that if R. Atkinson & J. S. Emory would waive the condition they made this offer to pay the debt of the Institution (which was) that the building should be finished before Sept. 1872. He would extend the time for finishing the building one year longer, he would be glad to enter upon his work as Teacher in Sept. In reply to which R. Atkinson stated that he was willing to comply with this provided Mr. Emory was willing & would do the same, and that he & Atkinson would agree to take care of \$4000 of the \$5000 of indebtedness if Mr. Emory would take care of \$1000 and that the Trustees might make this calculation on this basis of settling the debt.

It was moved & carried that the Ex. Committee be instructed & authorized to use any & all means it deemed proper to secure the necessary funds to finish the building and have the building finished & open the school in Sept. next.

Moved & agreed
