

Claude Webb Endorses Campaign

Claude Webb, Alumni Secretary on leave of absence to serve with the U. S. armed forces writes that he strongly believes that now is the time to undertake a program of expansion, to increase the effi-

ciency and undergird the place of O. U. in a post-war world.

He says: "I wish I were there to help conduct the campaign. It is the thing I have always looked forward to and have done a great deal of thinking about. I know this: it will take courage, patience, hard work, drive and determination."

To the Alumni Association, he wishes all the luck in the world in the success of the drive.
