MINOT STATE COLLEGE

Roger Roberts, Bruce Carlson, Dick Olson, (Superior in Discussion Nat. PKD Convention '65) view with satisfaction the results of MSC's first three years of Forensic Competition. Since the first trophy award earned by Robert Schoenwald at the Yellowstone Valley Tournament in 1962, the squad has accumulated awards in every form of competitive speech activity in tournaments throughout the Midwest and West.

The effect of an active forensic program and chapter of Pi Kappa Delta has been thoroughly felt throughout the campus. Due largely to fine administrative support, forensics at Minot State

has enjoyed a well-rounded schedule of activities ranging from a debate with the Cambridge debaters to an audience of 1200 and a high school speech festival to countless community programs and, most recently, an all-college picnic featuring a Lincoln-Douglas debate on "states rights."

While the tournament schedule next year is more extensive than any of the previous years involving trips to Southern California, Indiana and Kansas, the drive for a well-rounded program will result in a greater emphasis on community, college and high school programs—with special emphasis on involving more of the student body in debates on controversial issues.
