

# PROF. GRONER GIVES MOST HOSPITABLE CABINET SMOKER IN HISTORY OF O. U.

---

Great Piles of "Pills" and Other Nicotine Dainties Disappear When Tobacco Lid Is Loosed.

## Haworth and Rounds Prostrate from Effects of Living Up to the Motto, "Men Who Chew Are the Men Who Do."

Following his annual custom Prof. O. S. Groner gave a smoker to the Y. M. C. A. cabinet at his beautiful home on Cedar street last Wednesday night. The living room was tastefully festooned with garlands of empty Pall Mall and Mecca boxes while the walls had been made to resemble the interior of a log cabin by means of empty cigar boxes. The most interesting entertainment of the many features provided was a six round fistic contest between "Benny" Chavez and "Chick" Louisiana of Kansas City which resulted in a knockout for Louisiana. The entertainers from Way's cabaret also delighted the cabinet and the dancers were worked over time in their efforts to please.

The annual Groner smoker is one of the most delightful Y. M. affairs of the school year. Professor Groner in a recent chapel talk made the statement that "men who chew are the men who do" and he has endeavored to live up to this theory, in spite of some ill-advised criticism from old fogies that do not believe in smoking.

Since he inaugurated this custom of holding an annual smoker several years ago, places on the cabinet have been at a premium and the competition has resulted in great work being done by those elected to the office. Wednesday night's affair was fully the most elaborate of the series and the guests have nothing but the highest praise for the manner in which they were entertained. Charles Alford desisted from the nicotine long enough to express the thanks of the cabinet.

Besides an enormous quantity of—ah, liquid refreshments the guests consumed four cartons of Fatimas, twenty-four boxes of Pall Mall, sixteen sacks of Bull and eleven cans of P. A., to say nothing of eight boxes of perfectoes and 6 pounds of star. The entire evening established a precedent for free handed hospitality that will long stand.
