

authorized to nominate one half the board of trustees of said University - the University Board electing the same & when^{as} this arrangement has been found to be very unsatisfactory to all parties interested without any benefit to either party therefore resolved that with the board of the State Convention assembled in the city of Topeka ~~in~~ ^{the Spring of} ~~the Spring of~~ 1896 would respectfully recommend the following changes

First. That the University board nominate & elect their own trustees as the members of this board are better able to judge the fitness of men to fill said office than the ordinary nominating committee of the State Convention

Second. We would recommend that the University board authorize the board of the State convention to appoint five men (all to be members of the denomination in Kansas) who would possess the fitness in scholarship to be known as a board of visitors whose duties will be to visit Ottawa University at any time most convenient to our board & visit the class rooms hear the recitations &c. & thus be able to judge the fitness of the teachers & the scholarship of the students & that said committee of visitors make a report to the trustees at its annual meeting making such recommendations as in their judgment will be for the best interests of the University

And in any case when they find a lack of thoroughness on the part of the teachers that may tend to lower the scholarship of the

of members of said University from the
Board electing the same & when^{as} this arrange-
ment has been found to be very unsatisfac-
tory to all parties interested without any
