

---

Professor E. R. Nichols of the University of Redlands is directing preparations to stage "When Knighthood Was in Flower" which the students of that university will give for a combined forensic and athletic benefit sometime in February.

The same production was given here by the Senior class in 1910 under the direction of Prof. Nichols, then head of the department of English at Ottawa. The U. of R. Campus gives an enthusiastic account of his work there and in appreciation, say in part:

"The dramatization of the book under the same title was made by Professor Nichols, and he has had exper-

ience in directing the play in an eastern college All know that little need be said of the fine coaching ability of Professor Nichols He promises the public a production this year which will far surpass the play last year which made such a decided hit in Redlands "

The Midland for last week is a Freshman Edition
