

Receive Historical Spinning Bobbins

Dr. Charles A. Hawley recently received an enthusiastic letter from Ethel Joy Williams Higby, class of 1916 of Ottawa University.

A recent article about Silkville, Kan., by Dr. Hawley, which appeared in the Kansas City Times; was sent to her by a friend.

Mrs. Higby's father taught in the Silkville school when she was a little girl. Mrs. Higby has very graciously sent a sample of the bobbins which were used in spinning silk at the old Silkville silk factory. These bobbins, which are of considerable historic value, are being placed in the University library.

Dr. Hawley, as chairman of the library committee, is actively engaged in building up a historical museum in connection with the university library.
