DIRECTIONS

This is a study of **PSYCHOLOGICAL TYPES**, not of intelligence or emotion. There are no right or wrong answers. Everybody has each tendency at times. Which do *you* use most readily; i. e., which best describes your original inborn tendency, as distinguished from what you may wish to do, and from what you have made of yourself.

Circle-mark your answers on the separate answer sheet *not in this booklet*. Answers are both easier and more satisfactory if run in 20 minutes, skipping any you don't like; then if you care to re-read and change any, do so.
