

For the biblical person, peace action--being, as Jesus says, "peacemakers"--is not optional. The question is, HOW? This thinksheet is for self-examination on this question. The visuals are from a huge peace-movement flier "Cape Cod, Nuclear Weapons, And You" (FOR, Lower Cape Committee for a Nuclear Arms Freeze, and The Cape Cod Women's Party for Survival. They represent the four areas/degrees of destruction were a one-megaton bomb to be dropped on Cape Cod, which has four targets of prime importance to "the enemy." On the flier, each visual details the disaster for the corresponding area. For the thinksheet, I have made two changes: (1) Instead of geographical areas, I have used the four visuals for the four areas of responsibility; and (2) Instead of areas of destruction, I have used the four visuals for areas of creative shalom-action. Ask yourself, *What is my shalom responsibility now in these four areas?*
