

Young praised

I would like to sincerely thank the caller to "It's Your Quarter" (October 14) for rectifying an oversight in the recent Herald article about O.U. Radio.

During my interview for the article with Mr. O'Keefe, Ralph Young was mentioned several times as being instrumental not only in generating interest and gaining support for rebuilding a campus radio station at Ottawa University, but also in securing the present location for the studios, and for much of the initial

construction.

I am sure that the omission of mention of Mr. Young's considerable contributions to KTJO-FM was due to space constraints or unintentional oversight.

Indeed, as Dr. Dave Bemmels was the Father of KTJO in 1942, Ralph Young is the Father of the new KTJO-FM in 1992.
