Historical Sketch

Today we open wide the doors of our new Auditorium. As you approach the Auditorium from the foyer entrance, the eye is greeter by the harmonious coloring of the glazed tile, the acoustic tile and the variegated ceiling.

The ceiling has many times the sound absorbing qualities of plaster and together with the acoustic tile gives to the Auditorium the maximum effect for correct acoustic’s. The beautiful stage curtain blending into the color scheme lends a majestic touch to the Auditorium and completes the picture of architectural harmony.

Altoona school patrons have long seen the need of a modern up-to-date structure. When the Federal Government opened up funds in 1938 for additional P.W.A. construction, Altoona school patrons recognized their opportunity. Through the efforts of Mr. Roy F. Davis a petition was circulated petitioning the Board of Education to call a special election to build an addition to the present building, and at the same time make application to the Government for a grant of $18,000, this amount, 45% of the total was to be allowed only if the school district of Altoona would subscribe the balance.

A special school election was called August 10, 1938 and the voters of the community showed their appreciation of the opportunity to have a fine new building by voting $20,000, of bonds. The following day the Board received word from Senator C. L. Herring that the P. W. A. grant to Altoona had been approved.

Plans were immediately begun by Architects Dougher, Rich & Woodburn. On December 9, 1938 the contracts for the new building was let. Construction began December 19, 1938. The building was completed August 14, 1939 in ample time for opening of school.

"The entire object of true education is to make people not merely do the right things but enjoy the right things."
