

00:28:15	Donna Petrocco:	Greetings community! I am Donna Petrocco, Class of '82 and a member of the Board of Trustees. Happy to be present today! Thank you all for joining this meeting!
00:28:40	Pilar Galiana Abal:	Nice to meet you, Donna!
00:29:50	Margaret Herron:	Bummer on Covid! But glad you are feeling better!!
00:57:26	maryalice.grosser:	Love the collaborative culture Thanks for that.
00:59:39	Donna Petrocco, Trustee:	THANK YOU Terry!
01:00:09	Nori Hale:	Thank you, Terry. Best drummer I know!
01:00:15	Bob Evans:	A great provost!!!!!! THANK YOU Terry
01:03:22	Brad Matteson:	Nursing and other healthcare programs will be great! I would love to see more Information Technology degree programs as well
01:06:02	Brad Matteson:	a band in AZ! That's incredible! I would also love to see a Choir and other performing arts programs as well.
01:07:06	Heather Tarkany:	Amazing! So exciting!
01:07:52	Alicia Engel:	Great contest idea!!
01:08:11	Wynndee Lee:	Good looking building, looks like cross from the perspective, love that!
01:08:27	Pilar Galiana Abal:	Yes it is beautiful
01:09:22	Trish Hernandez:	
01:09:22	Matthew Fillo:	+1 for Godzilla Hall
01:09:51	steve.paternostro:	Doesn't Godzilla tend to destroy buildings?
01:10:15	Boyd Gafford:	Only when King Kong is not there to stop him.
01:16:14	Heather Tarkany:	Is this related to Covid?

- 01:24:21 maryalice.grosser: Thank you for the honesty and transparency about compensation.
- 01:29:11 Heather Tarkany: Do ESL and GED classes generate revenue?
- 01:29:36 Heather Tarkany: classes
- 01:31:58 maryalice.grosser: Thank you. This was helpful and you were so clear and supportive
- 01:33:22 Christine Currier: Do students already know that they won't be receiving any more HEERF funds? I wonder how that might impact future enrollment.
- 01:33:24 Kristen Moore: Thank you for all the clear information, Bill! Much appreciated!
- 01:34:48 Tamira Cross: There are many who have ideas that are cost cutting and cost eliminating in the way we do our job and could increase revenue and students to the university. How do we work to bring more of those ideas to the table, or the right people? Is there somewhere we could send an idea and have a response on who to send it to?
- 01:36:02 Brad Matteson: Thank you Bill :-)
- 01:37:36 Alicia Engel: You mentioned efficiencies from shared services, but I think it's fair to say that KS and AZ are very different markets. What can you share with us about how each campus might retain autonomy to meet local conditions?
- 01:38:09 Lara Boyd: Link to the Strategic Planning website:
<https://www.ottawa.edu/strategicplanning2/feedback-form>
- 01:40:37 Andrea Cook: There is a lot of talk on the upheaval of higher education and how Covid has sped this along. Can you talk more about your thoughts on the future of higher Ed and OUs place in this future ?

- 01:43:27 Matthew Fillo: Some time ago it was communicated to the online unit that our marketing materials were going to focus exclusively on recruiting female students.
- Is that still our focus? Does it still make sense to have that focus with our diminishing enrollments?
- 01:43:41 Brad Matteson: Are there any plans in the future for adding Information Technology programs to our campuses and online?
- 01:43:53 steve.paternostro: Can we get ahead of that thought process and start up more blue collar programs? Welding, Construction management, Training electricians, etc.
- 01:44:43 Kate Bayne: In addition, it has forced other Universities (perhaps kicking and screaming) into the online arena, saturating the market.
- 01:45:57 Tamira Cross: This is building off of Steve - In Arizona, the Community Colleges have a VERY strong trades program. However, with the current programs we have, we could create an Applied Business Management program for them to transfer from the field into the office. It would cost nothing to build and bring in additional students
- 01:47:02 mark.ortiz: Would OU consider, short programs, such as 2yr associate degrees, more focused on specialized career training rather than a traditional 4 year bachelor program, programs geared to those students who are not interested in traditional college?
- 01:51:29 Wynndee Lee: Thank you!
- 01:51:34 Yana Dashevsky: Thank you
- 01:51:36 Julie McAdoo: Thank you for this session!

01:51:36 Gloria Creed-Dikeogu: Thanks!!
