Fire drills are conducted at least once each semester in the residence halls at The College in Ottawa. All students are required to leave the building. The local fire chief inspects all campus buildings annually to assess fire safety. Students are not allowed to bring any explosive or combustible materials into the dormitories. Firearms, fireworks and weapons are also prohibited.

Beginning by October 1, 2010, the University will distribute an annual Fire Safety Report or notice of the availability of that report to all current students and employees. New students and employees will be provided with the report or the notice of its availability. The University will maintain a Fire Log recording any fire that occurred in an on-campus student housing facility and the date of that occurrence. The log will include the nature, date, time, and general location of each fire. The Fire Log will be maintained by the Campus Security Office and will be open for public inspection.

Also beginning by October 1, 2010, the University will provide a statement in the annual Crime Report regarding missing student notification procedures for students who reside in on-campus student housing facilities. The University will provide policy whereby a student missing for 24 hours will be reported to the Campus Security Office and the procedures that will be followed thereafter.
